

CHALLENGES TO IMPLEMENT MIP POLICY

NMCP MOZAMBIQUE,

Nairobi, 12 July 2016

Systems Challenges

- Weak knowledge of the importance of registration of activities (Quality data)
- Logistic issues to delivery SP at HF
- Conditions of Health Facilities
- Overleap of activities in mother and child
- Demotivated staff

Operational Challenges

- The low capacity on logistics on anti-malarials at all levels
- Deficient management of SP and other anti-malarials
- Lack of control in the private sector
- Stocks-outs of SP at HF
- Lack of BCC material in health facilities
- Pregnant Woman cant attend 4 ANC consultation

Implementation of New Policy

- Timeline to implement and consolidate the policy
- Tools in place and DHIS2
- Funds to implement
- Reproduction of materials
- In some case it is unplanned activities
- Adapt the current systems
